Saber Press Proudly Presents

RATTENKRIEG! The Art and Science of Close Quarters Battle Pistol

July 1, 2012 -- Saber Press is pleased to announce the release of *RATTENKRIEG! The Art and Science of Close Quarters Battle Pistol* by Bob Taubert.

Taubert, a USMC combat veteran and legendary member of the FBI, has operated and trained all over the world with many of the premier law enforcement and military tactical and anti-terrorist units in existence. He also played a direct role in the establishment and training of several well-known special operations units to include the FBI's elite Hostage Rescue Team (HRT) and the DEA's "Operation Snowcap" elements.

Taubert, an internationally-recognized subject matter expert on all aspects of CQB (Close Quarter Battle) and the author of hundreds of articles on firearms and tactics published under the pen name, "Bob Pilgrim," has spent years compiling the material in this book.

In addition to information about advanced pistol fighting tactics, techniques, and equipment is material not usually found in books of this type. Taubert also provides detailed chapters such as *Ballistic Shield & CQB Shooting*, *Vehicle Assault Shooting Techniques*, and *Close Quarters Battle Pistol Drills*. This last chapter provides a fully realized training program consisting of 25 individually-described and illustrated training drills that can be set up and run on standard firing ranges by the advanced practitioner.

RATTENKRIEG! The Art and Science of Close Quarters Battle Pistol is Taubert's legacy to the brave men and women who serve America in blue, black, tan, and camouflage uniforms.

Available now from www.saber-press.com, www.amazon.com and all fine bookstores.
